## EXPERIENCE

### •Beta Testers

June 2022 - December 2022

Full Stack Developer ( Certificate Link )

Remote

- Led development of WaterDrop app backend for customers and suppliers which is use to buy and sell bottles.
- Code optimization and debugging complex application programs and increased the efficiency of application.
- Collaborated with a team of 5 developers and designers for seamless implementation of new updates.
- Developed full-stack dashboard for order details, revenue, users and suppliers details, product details etc.
- Deployed the server on Google Cloud Platform (GCP) using Github Actions pipelines (CI/CD).
- Technology - ReactJS, NodeJS, Express, MongoDB, GitHub etc.

### •QANVUS Technologies

April 2022 - June 2022

MERN Stack Developer ( Certificate Link )

Remote

- Designed and implemented REST APIs for the application, enabling efficient data retrieval and integration.
- Collaborated with 5 developers to resolve software bugs, ensuring smooth operation of the application.
- Created responsive dashboard showcasing user and supplier details, revenue generated etc.
- Prepared and submitted reports and documentation to support the development team's workflow and facilitate project success.

## EDUCATION

### •Indian Institute of Information Technology, Kota

Expected July 2024

BTech, Electronics and Communication Engineering (ECE)

CGPA: 8.26

### •Lucknow Public School

2020

Class 12th, CBSE

Percentage: 92.8

## PERSONAL PROJECTS

### •Topic Tales

MERN stack blog application (Link)

- Tools & technologies used: React.js, MongoDB, Node.js, Express.js and Functionality - Login/Register [jwt used], create, update and delete post, upload image, add and delete comments

### •Job Seeker

React Native application with API integration (Link)

- Created a React Native mobile app that seamlessly integrates the J Search Rapid API, offering real-time updates on popular and nearby job opportunities. The app includes features such as easy job search, detailed job information, and a sleek UI/UX design for an enhanced user experience.

## TECHNICAL SKILLS AND INTERESTS

Languages:C, C++, SQL MATLAB (Certificate)

Developer Tools:VS Code, Version control (Git), GitHub, Canva (UI/UX design)

Frameworks:Node.js, React.js, React Native, Express.js,

Cloud/Databases:MySQL, MongoDB

Soft Skills:Collaboration, Communication, Team work, Leadership, Time management

Coursework:Introduction to computer system and programming, Data structures and algorithm, Object-oriented Programming, Operating System, Database Management System

Other: HTML, Tailwind CSS, Bootstrap, JavaScript

Areas of Interest: Software Development, Web development, App Development, Chess, Badminton

## ACHIEVEMENTS

- Worked as Fundraiser at HOPE Jaipur NGO and organized events for crowdfunding.(Certificate)
- Achieved 6th rank at coding Ninjas Weekend contest among 10000+ registrations
- Accomplished over 1100 DSA problem solutions across diverse formats.
- Ranked Top 10 in INAE - SERB Youth Conclave 2022 Hackathon among 300 participants. (Certificate)

## CODING PROFILES

GeeksForGeeks: Rank 37th out of 900+ registrations with a coding score of 900+ after solving 370+ problems .

LeetCode: Mastered problem-solving through solving 230+ problems.

CodingNinjas: Achieved Level 7 Expert by solving over 500+ problems.

Codeforces: Cultivated strong problem-solving skills by successfully tackling over 200+ problems.
